DISTRICT COMPLAINT POLICY FOR FEDERAL PROGRAMS

A parent, student, employee, or district stakeholder who has a complaint regarding the use of federal NCLB funds and is unable to resolve the issue, may address the complaint in writing to the district's superintendent.

Disputes addressing the enrollment, transportation (including inter-district disputes), and other barriers to the education of children and youth experiencing homelessness are also addressed under this procedure. Parents, guardians, and unaccompanied youth may initiate the dispute resolution process directly at the school they choose, as well as at the district or district's homeless liaison's office. The parent or guardian or unaccompanied youth shall be provided with a written explanation of the school's decision including the rights of the parent, guardian, or youth to appeal the decision. Students should be provided with all services for which they are eligible while disputes are resolved.

The superintendent will investigate, within one week, the circumstances of the complaint and render a decision within two weeks after receipt of the complaint.

The superintendent will notify the complainant of the decision in writing.

The complainant will be allowed one week to react to the decision before it becomes final.

The complainant will either accept or disagree with the decision and will provide such acknowledgement in writing, addressed to the district superintendent.

If the issue is not resolved with the superintendent, the complaint will be forwarded to the district's Board of Education for further review. The parent, guardian, or

unaccompanied youth shall be provided with a written explanation of the district's decision including the rights of the parent, guardian, or youth to appeal the decision.

Annual Notification - Asbestos Management Plan

The Asbestos Hazard Emergency Response Act (AHERA), passed in 1987, requires all public and private schools to inventory and inspect all buildings for asbestos containing materials. This inspection was completed in all Vermillion School buildings in 1988 with required reinspections every three years so long as asbestos is known or assumed to be in the school. The last reinspection was conducted in 2012. Any areas of known or assumed friable or nonfriable asbestos will continue to be inspected on a regular basis and procedures implemented to assure no health hazards are present.

The Environmental Protection Agency requires all schools to inform citizens of the school's efforts in dealing with asbestos containing material. The Vermillion School District has a management plan available for review. The plan details the location of any asbestos containing materials and is available for public inspection at Vermillion School District Administrative Services. Copies of the management plan will be provided to requesting parties for the cost of reproduction. For further information please contact Todd Moore, school district AHERA designated person at 677-7015.

'Rally Time' safety

Heavier than normal traffic flows during the annual Sturgis Motorcycle Rally require bikers and drivers to share the road for safety, officials with the SD Highway Patrol and Office of Highway Safety caution.

About one-third of motorcycle fatalities each year happen in West River counties during a two-week period around the annual rally, statistics from the Office of Highway Safety show. Riders can brush up on safety techniques and get a virtual look at many good motorcycle routes by visiting www.southdakotarides.com.
