

# International travel inspires USD exhibit

University Libraries at the University of South Dakota is showcasing student photography with the exhibition "Images from Abroad" now through May 3. Located on the first floor of the I.D. Weeks building in the Academic Commons, the exhibit presents photographs taken by USD and Cosumnes River College students, who participated in a faculty-led study tour of Ireland, Wales, England and France last summer. While course work for the students from USD focused on Ireland and "The Book of Kells," the photographs in the exhibit, which is free and open to the public, show the students' range of vision and emotional response to their travel experience. The study tour was led by USD Art Department Professor Carol Geu and Cosumnes River College Professor Kathryn

Mayo. USD's Art Department is South Dakota's only art program offering the professional B.F.A. studio art and B.F.A. art education degrees with emphasis areas in ceramics, graphic design, painting, photography, printmaking and sculpture. The USD Art Department also offers the state's only M.F.A. graduate studio degree while the nationally-ranked photography department at Cosumnes River College offers both vocational and fine art degrees with an emphasis in visual expression.
