

Monta Has Much To Offer Customers

Monta Storm, owner

Monta's Framing & Floral, owned by Monta Storm, is located in beautiful Historic Downtown Yankton, and has been in its current location on 3rd Street for 15 of the 17 years the store has been in business.

Although framing and floral is in the name, Monta's has so much more to offer their customers! Monta is currently unveiling her full-service interior design center, specializing in accents, window treatments, and more.

They can assist with your project from start to finish! Recently, Marilyn Loecker joined the staff of Monta's and brings a wealth of knowledge and years of experience in the design industry. If you have an interior design question, we encourage you to ask the expert! If you have a design dream, please let Monta and her team help you fulfill that dream! She and her team are committed to your satisfaction.

Monta's is also a specialty store, with a wide array of gifts, home décor and accents and as we mentioned a full-service design center, to meet all your design needs.

And yes, Monta's does everything framing, from shadow boxes to personalized memorabilia to traditional picture/poster framing. With nearly 50 years' combined experience, Monta's team specializes in color and mat combinations to create the most unique, custom pieces. Her logo of "Finest in Professional Picture Framing" is well deserved!

Monta's Tip: When decorating, opt for neutral-colored furniture, and colorful accents. You can change your accents regularly, based on season, etc., but you may want to keep your furniture for a number of years!
