**ATTENTION:**

**Vermillion Wastewater Utility Users**

The Vermillion Wastewater Department would like to remind you to check your sump pump connection. please check that it is working properly and discharging outside away from home or business. Any such water must be discharged outside so that the storm water system can receive it. When discharged into the sanitary sewer system, these waters cause an unnecessary hydraulic load to both the sanitary sewer system and the wastewater treatment facility and are a financial burden to the community. If you have any questions, please call the Wastewater Facility at 677-7077 and we would be happy to assist you.

**Remember, City Ordinance 756 (e) 1 reads:** No person(s) shall discharge or cause to be discharged any unpolluted waters such as storm water, surface water, groundwater, roof runoff, subsurface drainage, or cooling water to any sanitary sewer. Failure to do so may bring a penalty to up to \$100 a day for non-compliance.
