Jay Bot they had numbers w of the equation. Jim Sampson said the "good" category takes that into account. Toby Brown stated that Clay County is also unique because there is a cap on the high end at 3,500 head for dairy in the zoning regulations.

Paul Kostboth said Lincoln County was recently a pilot for a dairy operation. A nationwide leading dairy operator found the site and contacted the County Commissioners. They involved the neighbors and talked through challenges. In the end, the neighbors appreciated being involved.

Mike Lovejoy said that an open operation is more pollution than a closed operation, and that is what people do not understand.

Passick stated that Clay County is densely populated, and the Board would want a good period of time to address any concerns.

Jerry Wilson stated that he is familiar with dairy and grew up on what was a large dairy farm of 35 head. Modern dairy is industrial and must be treated as industrial. He recently toured a facility of 3500 head, and the sanitation level at that facility would never have been tolerated by his father. Wilson said he is not opposed to dairies, but currently the County has 2 well thought out regulations that need to be maintained: the cap and the restriction over a shallow aquifer. He stated he would like to see the Board tour a large dairy and also wants to see the aquifers protected.

Mockler stated he is personally against the cap because the County does not regulate the size of any other industry. He said he has toured a large dairy and grew up with it as well. The Planning and Zoning Commission is currently reviewing regulations.

Shannon Draper, Vermillion Fire Department Chief, met with the Board to discuss the Fire Department. He said recently someone living outside city limits in a neighboring county told him that they expect to lose the structure if they have a fire, and they expect to die if they have a heart attack. Draper stressed to the Board that that is not what Clay County residents should expect. Recently, he has created more divisions and more training. EMS and Fire have merged at an administrative level, allowing Project to the County Line

1A, 1B, 3A, and 3B was tabled.

Packard moved, seconded by

Powell to authorize Johnson

Engineering to prepare Phase 3 of

the Clay Creek Ditch Cleanout

At 12:02 p.m., Packard moved, seconded by Powell and carried to adjourn and reconvene as Board of County Commissioners.

Cathi Powell, Treasurer, met with the Board to present applications for abatement and an elderly tax freeze. Packard moved, seconded by Powell and carried to approve and authorize the chairman to sign all applications as presented due to all applications meeting requirements.

Powell moved, seconded by Kephart and carried to approve travel for the Auditor, Treasurer, and Register of Deeds to Pierre May 6-8 for Spring Workshop.

Mockler moved, seconded by Kephart and carried to authorize the chairman to sign the WIC Contract for FY2015.

Packard moved, seconded by Mockler and carried to approve payroll and the following claims for payment. Payroll April 2014: \$4995.50, Commissioners Office 9151.50, Auditor's Treasurer's Office \$13015.24, States Attorney Office \$13357.67, Courthouse \$2425.83, DOE's Office \$9151.50, ROD's office \$6925.17, Veteran's Office \$1583.33, 24/7 Sobriety Project \$2192.68. ANALYSIS

election on the November 3rd general election ballot. John reviewed the time line for adoption of a resolution for the bond no later than the first meeting in August. John reviewed the construction timeline that would award a bid in May 2015, start construction in August 2015 and, weather permitting, completion by July 1, 2016. John stated that we most likely cannot afford all the items included in the Prentis Park master plan but for the pool, parking lot and basketball courts, along with small items to connect this group, he estimated this portion at \$5.2 million. He proposed this to be funded with \$1 million of General Fund Reserves, \$1 million of second penny sales tax reserves, \$3 million of general obligation bonds and \$250,000 of donations and grants. John noted that some of the smaller items included on the master plan will be addressed by City departments. John stated that, to avoid the tax increase with a general obligation bond, he proposed that the debt service be financed from \$35,000 from Lotuswood reserves, \$35,000 from general fund, \$155,000 from second penny sales tax and \$5,000 from BBB sales tax. John reviewed the proposed changes in the composition of the debt service payments over the 20 year life of the bond. John reviewed the impact of the debt service payments on the individual funds. John requested City Council direction on what items they would want included from the master plan as well as any other funding options. John noted that a detailed design will need to be developed as well as ranking of the different items of the master plan. Discussion followed on the master plan items. John stated that he would provide the information to the City Council and request their input on how to proceed. 4. Briefing on the May 5, 2014

provided an update on the

proposal to make Prentis Park

improvements. John noted that,

when the project was last

discussed, it included a general
