A heartfelt note of gratitude to everyone who attended my retirement party at the library! Thank you all for the gifts and cards and mostly for being there to help me celebrate what has truly been a dream job for 29 years! Thank you to the Library Board for the amazing proclamation of my work and to my wonderful and creative co-workers who planned this beautiful event ... not being a part of their daily lives will be the most difficult transition—but I heard that I can return to volunteer! With love and thanks, Janice Kitzler

DON'T BE LEFT IN THE COLD! A home's heating system should be cleaned and inspected once a year. Although most of you don't do this now, it is a good idea to start. This will make your furnace/heat pump among other things run more efficiently, reduces the risk of breakdown and improves the air quality of your home. A FURNACE/HEAT PUMP CLEANING INCLUDES: • Checking the indoor filter • Pulling out the burners & cleaning ensure proper exhaust connections • Cleaning/oiling the blower motor • Inspecting the ducting • Checking for carbon monoxide leakage • Cleaning the coils \$49.95 Come see our show room!
