St. Presentation by Dan Daily with TDG Communications on an exciting project that could bring South Dakota's history to life in Vermillion and other communities. "Picture South Dakota's Past" uses the newest smart phone technology to help visitors visualize Vermillion's past, its architecture and its people. In a very vivid way, it is like walking in the footsteps of the people who persevered and prospered in South Dakota's early years. Imagine standing at the corner of East Main and Center Streets while holding in your hand a 1901 photos of downtown Vermillion-an image that was captured in the exact spot where you are standing. With QR codes and smart phones or ipads, it's easy to do. Learn more about the project and about funding opportunities. The meeting is open to the public and input is invited.
