Good-looking, pious Christians.

The second book – “The Poisonous Mushroom” – was written by Ernst Hiemer, one of Streicher’s assistants, and features many of the same themes as the previous book.

It also portrays the same “solution to the problem” – Streicher and Der Stürmer.

Streicher himself went on to become one of the highest-profile defendants of the Nuremberg Trials.

“Streicher was brought before the Nuremberg court on charges of having been an accessory to the murder of millions of Jews by inciting hatred and persecution, and perverting the minds of Germans, especially children, through his speeches and writing,” Leibiger said.

He was executed on Oct. 16, 1946.

To say that his guilty verdict was purely the result of Streicher’s message being acted on by his readers is “an over-simplification,” Leibiger said.

“To paraphrase Hilary Clinton, ‘It takes a culture to raise a child,’” she said. “German schoolchildren were enculturated not only by the means of textbooks, but by teachers and administrators.”

Families, friends, churches and youth organizations also played significant roles, she said.

“To place the blame for poisoning German youth on only one of these agents, and to target only one individual, is scapegoating,” she said. “This is not to excuse Streicher for his role in socializing German youth into anti-Semitism, but to point out he was not alone responsible for indoctrinating Germans.”

Many of Streicher’s works are now available online via historical groups, but
