Swimming and diving men, women lose at home

The University of South Dakota men's and women's swimming and diving suffered setbacks at the hands of Green Bay at the USD Pool in the DakotaDome. The men lost 149-89 and the women lost 148-95.

The Coyote women won four of 13 events. Mariah Anderson (Kearney, NE), Shannon Mocerri (South Lyon, MI), Hannah Veselik (Darien, IL) and Kaitlyn Jefferson (Westland, MI) opened the meet with a victory in the 4x100-meter medley relay, finishing in 4 minutes and 32.43 seconds.

Megan Chmielewski (Shakopee, MN), Mocerri and Jefferson brought home individual event victories for South Dakota. Chmielewski score 262.49 on the 1-meter board. The mark is 19 points shy of the NCAA qualifying mark. Mocerri won the 100 breaststroke in 1:14.17 and Jefferson the 50 freestyle in 27.87.

"Megan dove phenomenally today," said head coach Jason Mahowald. "Her score on the 1-meter board was her best by 30 points. She's only 19 points short of qualifying for the NCAA meet and we are only four meets into the year."

Colin Krysl (Bellevue, NE) came up with the lone win for the USD men, winning the 100 butterfly in a lifetime-best 58.74. Krysl added a second-place finish in the 200 individual medley as well. Blake Frederick (Lincoln, NE) took second in the 400 and 800 freestyle.

"This is a young group," said Mahowald. "We are working hard to improve the little things with our team and we are making big strides. Our goal is to improve every time we get a chance to compete in the pool. This upcoming week we will have a couple more opportunities to do that in Wisconsin."

Swimming and diving will participate in the Border Battle hosted by Wisconsin Stevens-Point. The two-day meet will start at 10 a.m. on both Friday and Saturday.

Offering the best in **scientifically proven, high quality, cost-effective care** for your allergy, asthma, and sinus problems.

Some physicians who are not trained Allergists have started offering allergy testing, and prescribing allergy treatment with drops under the tongue. Before considering this form of treatment for you or your loved one, you should ask the doctor a few questions, such as:

- 1) Are allergy drops under the tongue an FDA approved treatment for allergies?
- 2) Are allergy drops under the tongue paid for by my insurance?
- 3) Do allergy drops under the tongue have a 100-year history of safety and continuous improvement in effectiveness, as do allergy injections?
- 4) Are allergy drops under the tongue as effective as allergy injections?
