Referred Law 16: The Wrong Answer for South Dakota's School Children

- Mandates a statewide system.
- Overhauls schools nationally 6th in graduation rates, 8th in college entrance exam scores, yet dead last in state funding.
- Shifts control of education from local districts to Pierre.
- Seriously increases standardized testing.
- Destroys teacher morale and collaboration with reward-and-punishment schemes that fail to improve student outcomes.

This complicated, 25-page stab at "education reform" greatly expands state government and blames our teachers for difficulties caused by huge funding cuts.

Let's keep control at home and politicians out of the classroom.
